Environmental Activities

2006-2010

- Detail Design of Landfill Complex
- Technical & High Supervision for Construction & Lining of Landfill & Leached Treatment Plant
- Design of Municipal Solid Waste Transfer Station

2010-2013

- Design of Blast Furnace Sludge Storage Area
- Coal Tar Lagoons Isolation
- Industrial Ferrous Waste Processing
- Research on Reuse Restaurant Waste Oil as Biodiesel
- Electrical Arc Furnace Slag cooling & Recyclin
- Design and construction of Stand-alone Energy Systems based on Renewable Energies
- Iron Oxide Pellet Fine Reuse
- Water Reuse
- Soil Remediation

2013-2014

- Design of Converter Slag Recycling
- Integrated Solid Waste Management
- Waste To Energy, Anaerobic Digester
- Construction & Demolition Waste Recycling
- Industrial Waste Reuse by Briquetting Lime, Sponge, Iron, wood scrap
- Water and Waste Water Treatment Plan
- Fume Treatment Plant (FTP)
- De sulfurization
